

How To Attach A Camera

Step 1:
Insert bolt into
bottom of the train.

Step 2:
Screw camera
holder onto the top
of the train

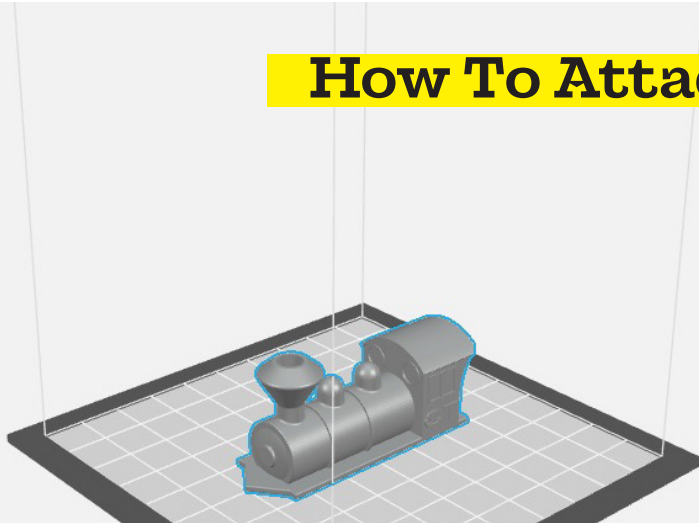

Step 3:
Insert camera into
camera holder.

Some cameras
can be attached
directly to the bolt

How To Attach A 3D Print

Step 1:
Make sure your 3D design has a hole on the bottom for the nut.

Step 2:
Insert bolt into bottom of train

Step 3:
Insert nut into the bottom of your 3D print. (Add glue if needed)

Step 4:
Attach the 3D print with bolt onto the bolt on the top of the camera car.
